

Power of the Reds

Red Angus Sale

Saturday, March 27, 2021 1:00 pm cst

United Producers, Inc • Shelbyville, IL

Welcome to the 26th Annual Power of the Reds!

To say this past year has been challenging would be an understatement. Last year held many challenges, but as we move into 2021 things are looking up. There have been a lot of changes in the last 26 years of this sale; faces, locations, the cattle industry, and boards.

This will be the second year at the Shelbyville facility, United Producers. Even with the challenges of 2020, UPI worked with us to help bring the annual Power of the Reds. The sale was well received in the area and we are looking forward to being back!

The Red Angus breed continues to show growth despite all of the challenges to the national cattle industry. Some of us are able to remember the breed when it was considered a "minor" breed in the industry. Today, we sit comfortably in the top 3 breeds in the industry. This can be accredited to what many of us like to refer to as the great maternal machine, the Red Angus cow. Today she is recognized throughout the industry as the most highly valued female of ANY breed or composite.

As always, when you look through the pages of this catalog, we encourage you to find those genetics that will best fit your breeding program. If you are just starting out, we feel this is an excellent opportunity to put some of the best genetics to work for you. If you have any questions regarding any of the lots being offered within the pages of this catalog, we encourage you to call the breeders directly.

The sale will be broadcast live on DV Auction for those of you who are unable to attend in person. If you would like to leave an absentee bid, please feel free to contact any of those listed on the next page. We guarantee those bids will be held in the strictest of confidence.

We would also like to invite you to the Social Event Friday night. Cattle will be on display beginning at 4pm. We would also like to invite you to come a little early on Saturday to attend the annual membership meeting! There will be doughnuts, coffee, and great fellowship of Red Angus breeders. We look forward to seeing you in Shelbyville, IL.

Big Foot is one of the hottest bulls in the breed. He has already sired numerous champions and his semen has been as high as \$420 per straw. Add this with an impressive Epic R397K daughter and you have a deep bodied, length of spine heifer that is sure to be productive in your program as well as bring home titles from the show ring. This one is hard for us to let go of, but we wanted to bring a good one to the sale!

We really love this heifer. We feel like she will make a good show heifer and an even better cow in the future. We bought the dam from Rhodes Red Angus and this cow always does her job. The sire, Deer Hill Anticipation 242F, a C-Bar Anticipation 101W son has been a rock star.

Daughter out of HXC Western that we purchased with Co-owner Tim Chapman from Hueftle's and we love HXC Western calves as they are...deep, thick, and style. 004 is out of a 9 year old cow that never misses. The dam has been known to run coyotes out of the calving pen at a high rate of speed. Great mom. Always produces one of the heaviest calves.

50Oak Heidi 0251 brings shape galore. Talk about sheer volume in this heifer, her spring of rib is the first thing you notice. Yet still smooth and sound in her type with plenty of performance, expect her to make super nice heifers or heavy muscled bulls. Either way you win. On her bottom side 0251's dam was our pick from the 2017 Ladies in Red sale. She has risen to the top of our herd in short order. On the top side, 0251 is sired by Red U2 Blue Collar 295E. He was a \$76,000 high seller out of the U2 ranch who has bred exceptional and his first calf crop took the U2 Dispersal by storm with multiple high selling progeny. 0251 is a deep bodied, big hiped, dark red, gentle female. An exciting heifer, ready to make an impact!

In 5Oak Helga 0292 you find her pedigree loaded with individuals of genetic influence. On the bottom side her dam hails from the cornerstone producing female BKT Larkeisa M288 backed by the great sire Soo Line Power Eye 161X. On the topside, 0292 brings the remarkable sire U2 Blue Collar 295E who carries the influence of U2 Reckoning 149A. Reckoning is known for injecting a dark red color, tons of shape and extra look in a skeletally correct package with a beautiful udder. 0292 is a long necked, square hipped, straight topped, dark red, female with great structure. A remarkable heifer, influenced by distinguished lines!

Get a load of this one! This is a July heifer out of one of the best cows we own. We are moving the mother from the fall calving to the spring calving group and this is her transitioning calf. We've had nothing but top notch calves out of the dam, a Brylor Mak'n Waves 39x daughter by a Red Brylor Skor dam-no wonder it always works with her! Sire is Damar Dochehli who was the highest selling fall Red Angus bull calf from the Damar dispersal. Dochehli is by Andras New Direction out of the Damar Julianna donor matron. A mix of some really good genetics in a combination you just don't see. She is thick and a little larger framed than many, just the way we like them. We have a full sister due to calf any day now so you can buy this one from us if you like her!

We have this tremendous CT Grand Statement daughter out of our original donor cow, a Red Towaw Indeed daughter from the Dynette family at Gill Red Angus. Three generations of donor females and a flush to Tree Lane King of Spades gave us this lass. The picture isn't the greatest but you should still be able to see the bone, the total body length, the neck extension and sogginess that makes us think this could be a really good one. And, she is young enough that you can take her home and halter break her for a young breeder just starting out. King of Spades has the look and we have been real happy adding his genetics to our herd. This heifer is a $\frac{3}{4}$ sister to our senior herd bull "Car et aker". We like the genes!

FIVE OAKS FARM

Caregiver by Travis Giffey • Sparta, TN • 931-260-1478

Service Sire Rust Varsity Blues 35G

Offering 5Oak Doreen 9737, a bred heifer with influence from Pie Cinch and Z749 MSR Grand Statement. 9737 comes pasture exposed to Rust Varsity Blues 35G. Due between 9/16 and 11/8. Varsity Blues 35G on genetics alone is an elite up and coming breed changer. His sire is, U-2 Blue Collar 295E and his dam, WSF Ms Yankee 13T 12W is one of the most influential donors in the breed and her production rivals with the most elite. And Varsity Blues excels in phenotype as well. He is proud fronted and extended through his front end with a smooth shoulder and bold ribbed with extra softness and natural muscle shape. Be amongst the first to get ahold of offspring out of this up and coming sire.

Bred to HXC Western (3523654).
Calf should be born by sale day.

Mulberry daughters continue to impress. We purchased this cow from Dick Kealy's dispersal sale and she has continued to produce great calves for us +700lb weaning weights. The only reason we are letting this one go is because we have younger Mulberry daughters entering our herd. Don't miss out on this opportunity!

Confirmed 40 Days bred to RTE 9 KS Caretaker (4106200)

Not quite 5 years old by sale day this young cow is just hitting the prime of her life. We have retained one daughter in the herd that isn't in production just yet. Ava Rose was sired by another herd bull I wish we had more heifers from, Rte 9 Birmingham, an ET calf we raised. His dam was the first donor we owned in a partnership with Gill Red Angus out of South Dakota. Ava Rose's dam is a Feddes Big Sky daughter still in our herd. Another fall calver, she was confirmed 40 days bred to Rte 9 KS Caretaker# 4106200 on Feb 26th. Check out his pedigree! I can't tell you if calf will be bull or heifer but you shouldn't be disappointed either way!

Confirmed 60 Days bred on 2/26/21 to
RTE 9 KS Caretaker (4106200)

A fall calving 5 year old that has done a good job for us just being a mama. We've always been happy with her own calves which have primarily been steers. Genetically predictable to perform with her sire, "Bottomline" being by Badlands Net Worth 223U out of the Brylor Karma 12K donor. I wish we had kept more daughters out of the bull as they know how to be Red Angus mothers. Eda's dam is a Badlands/PFFR Beefmaker daughter with old time Chief genetics on the bottom side. She was confirmed 60 days bred with a heifer calf on Feb 26th. Calf will be from our current herd sire, Rte 9 KS Caretaker #4106200. Caretaker is a very stout 6 plus frame bull we raised with a great look and a stacked pedigree. Most of the females in his 3 generation pedigree have been Donor females in very progressive programs, we are getting our first calves from him this spring.

Sire to Lot 30 Lucht Diamond Back 894

Right from the performance-oriented Gill Red Angus herd in South Dakota this 8 year old cow from our fall calving herd has been confirmed bred for 60 days as of Feb 26th with a heifer calf by Rte 9 KS Caretaker our King of Spades son who's dam also has roots that run deep in the Gill herd. Sired by Lucht Diamond Back 894 she is from the famed "Roxie" family at Gills. Dakota Copper 29K is also in her pedigree with Dakota Rambl er. She is a well-made, lighter colored female that gives some dimension to her calves. She should still have a few more years of calf raising and will do the job year in and year out.

I am going to an AI program and that is the only reason this bull is being offered for sale. He is very gentle to be around and his calves are really looking good. A great opportunity for someone to take this bull up to the next level.

Look no farther for the outcross that will make a difference. This guy is deep bodied, long spined, full of muscle, and easy keeping. He is sired by one of the most sought after bulls in the breed, 3SCC Domain A163. He is a quiet, easy going bull that will be sure to put pounds on the hoof for your program!

This Tesla son has a lot to offer. He is a thick made fella that is super smooth made. He is a long spined bull that moves out with ease. His -3.4 BW makes him an ideal bull to use on heifers and not lose any growth on your calves. His quiet disposition completes the package.

Tanker is sired by the great Kargo Bull that has been a standout for Blair's Ag and since being at Timber Creek Ranch has produced numerous champions. Tanker's Dam is from the reknown Damar operation. He is big footed, heavy muscled and very docile. We purchased this bull in 2017 and after his show career he has been our farm's clean up bull since where he has produced many calves that have the same big foot, big bone structure an great docility.

This young bull came to us from Canada, he is out of the Northline program on both sides. His sire was Reserve Grand Champion at Fort Worth Stock Show in 2017. His Dam Cream Soda 241X came out of Northline's donor pen. She is a brood cow with femininity, structure and soundness. She was 2013 NWSS Senior Champion female. Revival progeny are later maturing but can provide massive rib shape, depth and strength thru their top and heart as well as sound feet and legs. This young bull would be a great addition to any program.

Selling 3 #1 conventional embryos with the buyer getting 1 additional #1 embryo up front as the guarantee. The Sara 043 cow is a top cow for the Van Wye program. She was crowned Champion Performance cow over all breeds at the 2014 Illinois State Fair. She had previously won Champion Young Performance cow over all breeds in 2012 becoming the only Red Angus cow to win this honor. Sara is a flawless cow. She is clean fronted and long bodied with very solid feet and a great udder, and disposition. The Kodiak 3A sire was bred and raised in the Brylor program in Canada. He is known for docility and as a great female-maker. You will like these calves and they should have a great disposition for a junior to work with. Stored at KABSU in Manhattan, KS

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Terms and Conditions

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle. Buyer hereby grants to Seller/Sale Manager a security interest in the livestock purchased to secure the payment of the purchase price, and Buyer further authorizes Seller/Sale Manager to file any necessary documents with any Secretary of State or other governmental entity necessary to perfect such security interest.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the Auctioneer and the decision will be final.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

FROZEN LOTS: Buyer is to pay for all shipping and handling of embryos and/or semen. Embryos and/or semen will be shipped COD or a separate account established at the storage facility within 30 days of sufficient payment unless other arrangements are made with Sale Manager and/or Seller.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the Sale Manager prior to the auction. All efforts for the exportation of cattle can be arranged through the Sale Manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Suggested Sale Terms of the Red Angus Association of America including but not limited to points 8 and 10.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

LIVESTOCK INSURANCE: Please tell the sales clerk when you check out if you would like to insure your purchases, and they will record the necessary information. All purchases are the buyer's responsibility as soon as they are sold.
